Hartzer Consulting analyzed 3 .CARS domain names with live websites. We focused on website traffic, search engine rankings, and overall value of the traffic received by the car dealerships.

Wichita.CARS and Phoenix.CARS were two brand new websites, while Arizona Car Sales moved their website from ArizonaUsedCars.com to Arizona.CARS.

Wichita.CARS

- 17,000+ total visitors from direct traffic and organic search in 2016
- The dealership received \$15,975 of organic search traffic value in the first year.
- **Wichita.Cars ranks #1 on Google** for the search term “Wichita Cars” and outranks many competitor websites including WichitaCars.com

Phoenix.CARS

- Dealership saw over 1,600 visitors after just 103 days, which equals \$5,531 of CPC value, or \$19,600 annualized
- Annual cost of the .CARS domain registration was recovered within a few months
- As of March 2018, Phoenix.CARS ranks for 4 keywords in the top 3 positions, and 8 keywords in the top 4-10 positions in Google’s organic search

Arizona.CARS (Previously ArizonaUsedCars.com)

- Dealership saw a **74% increase in traffic from Google organic search** after switching to .CARS within just 7 months
- Just by moving from ArizonaUsedCars.com to Arizona.CARS, the dealership realized \$40,611 in value in the first 7 months (\$69,618 in annualized value)
- The number of keywords that Arizona.CARS ranks for nearly doubled from 3,212 keywords to 6,236 keywords over a 9 month period.
